Yuejia Li

Undergraduate Student in Computer Science and Technology @ Wuhan University

liyuejia@whu.edu.cn · (+86) 152 7216 1950 · Google Scholar · GitHub · Homepage

Research & Selected Experiences

- My research interests include **representation learning**, **explainable AI**, **responsible AI**, and **multimodal learning**.
- Co-developed Semantic Consistency Learning for cross-species animal re-identification (**ECCV 2026**); evaluated on 11 datasets covering 40+ species, with the best Rank-1 and mAP on 8 of 10 unseen datasets.
- Our work on threshold-stable selective classification for FOIA privilege review was selected for an **NLPCC 2026 oral presentation**.

Education

Undergraduate, Computer Science and Technology (Hongyi Honor Class) 2024-2028 (expected)
Wuhan University Wuhan, China
Research supervisor: Prof. Mang Ye · Average score: 88.5/100

Internship Experience

Microsoft Research Asia, Star of Tomorrow Research Intern Summer 2026
Social Computing Group · Mentor: Fangzhao Wu
Project 1: Radioactive Feedback: Tracing Models Trained by Proprietary LLM Judges *(under review at ICLR 2027)*
Project 2: On the Vulnerability of Semantic IDs in Generative Recommendation *(under review at ICLR 2027)*
Project 3: Towards Unbiased Generative Recommendation *(under review at ICLR 2027)*
Project 4: On the Mechanisms of Safety Failure in Large Language Models
(under review at Nature Machine Intelligence)

Publications & Preprints

- **Cross-Species Animal Re-Identification with Semantic Consistency Learning**
Shuoyi Chen*, **Yuejia Li***, Mang Ye (* equal contribution)
ECCV 2026

- **See Before You Code: Learning Visual Priors for Spatially Aware Educational Animation Generation**
Yuejia Li*, Ke He*, Junheng Li, Shutong Chen, Jingkang Xia, Zhiyue Su, Junchi Zhang, Mang Ye (* equal contribution)
arXiv preprint, 2026

- **FedDiG: Federated Continual Graph Learning with Disentangled Generative Replay**
Yuejia Li*, Zihan Tan*, Wenke Huang, Bin Yang, Mang Ye (* equal contribution)
Under review at ICLR 2027

Ongoing Research

AI-Assisted Learning Silently Degrades Metacognition In progress
Yuejia Li, Synesis AI · Supervisor: Mang Ye
Developing a Bayesian cognitive model, behavioral observation framework, pseudo-understanding risk index, and cognition-aware interventions; a prototype and small-scale validation are complete.

Community Contributions & Projects

- **Synesis AI** (co-founder and technical lead, 2025-present): AI-assisted learning products and multimodal teaching tools.
- **DeepGraph** (creator, 2026-present; 500+ GitHub stars): research agent for literature discovery, hypothesis generation, and experiment execution.
- **ClawOSS** (co-author, 2026-present): open-source maintenance agent; project pull requests have been merged by PyPI, OpenClaw, and ByteDance DeepFlow.
- **OpenClaw** (contributor, 2026-present): agent workflow automation and engineering infrastructure.
